

## Environmental Timber Purchasing Policy Statement

Bolt Building Supplies recognises that it has a responsibility to its customers, suppliers and staff to source its timber based products from well managed forests. We are therefore proud to announce that Sawn & Prepared timber and MDF mouldings are only purchased from legal sources and, where required, through our Chain of Custody scheme which is licensed by both PEFC and FSC (through BM Trada Certification Ltd.). This scheme ensures that certified timber products are obtained from well managed forests to a minimum of 70% (50% for MDF products under the FSC scheme). Further products are to be added over time. PEFC certification has been available on our roof trusses since the end of 2005.

If your order states that you require Chain of Custody materials, we will ensure that your order is picked from traceable stocks, by staff who are familiar with our Chain of Custody scheme, and will be marked on your paperwork accordingly.

For further details, please see our website at:  
[www.boltbuildingsupplies.co.uk/chainofcustody.asp](http://www.boltbuildingsupplies.co.uk/chainofcustody.asp)  
You will be able to download a copy of our PEFC and FSC certificates & schedules as well as further details on our company procedures.
